## FRONT-END DEVELOPER

I'm a motivated front-end developer. I can develop responsive websites from scratch and raise them into modern user-friendly web experiences. Transforming my creativity and knowledge into websites has been a passion for me.

If you want to see my previous works, check my portfolio **HERE**.

My current goal is to become a Full-stack API developer, so now I am learning to use Node.js, Express.js, and MongoDB while also improving my Angular skills.
